LIFE SENTENCE FOR KIDNAPING

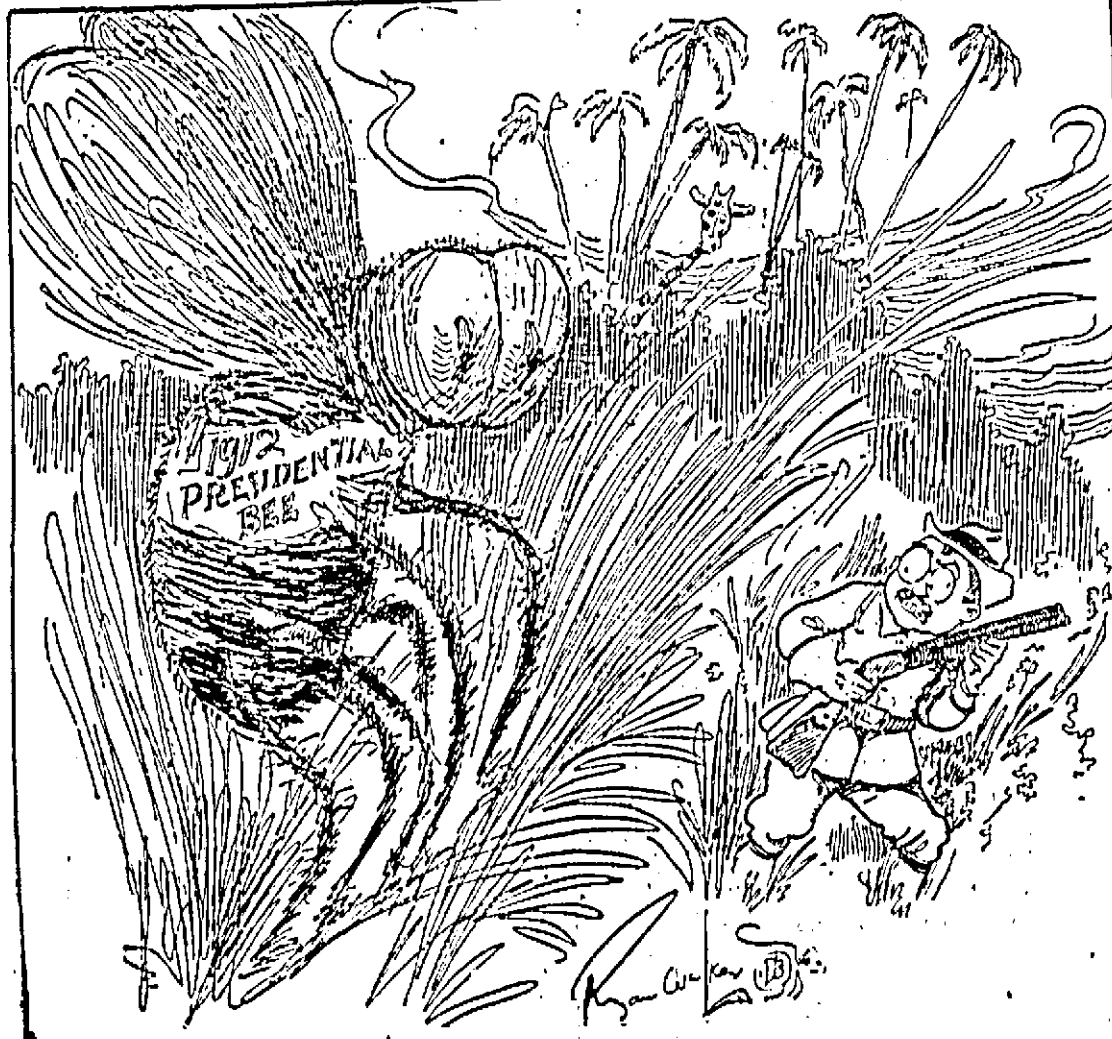

This Is The Bill Presented To The Legislature
This Morning--Other Matters.

SAME SENATORS CONTINUE A PROBE

Lieutenant-Governor Strange Names Old Senate Members
As Men To Continue The Stephenson Investi-
gation In Behalf Of The Senate.

(SPECIAL TO THE GAZETTE.)
Madison, Wis., March 27.—The Assembly committee on charitable and penal institutions recommended a bill to punish kidnapping with life imprisonment.
There will be no change of the primary election law that will apply to the coming spring election, the assembly today postponing any action on the bill for rotation of names in the ballot.
Lieut. Gov. Strange appointed Senators Marsh, Morris and Lusting to continue the probe of Senator Stephenson's campaign expenditures.
The primary election probe developed no new sensations today.
Assemblyman Henry E. Roethe of Janesville is standing over the state oil inspectors and his deputies with his ax. He wants to abolish the department and a brief bill of which he is the author will come up for a hearing next week. The committee on Judiciary of the lower house has given the bill consideration to the extent of framing a bill fixing qualifications for oil and gasoline products shipped into the state.
The enforcement of the law, however, is taken away from the inspectors and placed in the care of the dairy and food commission. The bill expressly provides that the officers of the oil inspectors shall be abolished. It is announced that Duane Mowry of Milwaukee, author of "The Folly of Oil Inspection," will be here to discuss the law before the committee.
Here are a few of the provisions of

the substitute bill:
The oil inspection department is abolished.
The color of kerosene shall be water white.
It shall not contain more than a trace of any sulphur compound.
It shall not contain water or tar-like matter.
It shall not contain more than 4 per cent by weight of residue after being distilled at a temperature of not more than 570 degrees Fahrenheit.
It shall have a flash test of 100 degrees Fahrenheit.
Gasoline shall have a gravity test of 65 degrees Fahrenheit.
Mr. Mowry's investigation is said to have shown that from 1897 to 1907 the state oil inspector recorded the rejection of just one car of oil in Wisconsin. Since 1900, he says, he has not rejected a single barrel in Milwaukee. The chief argument against the oil interests have, found so many uses for the by-products of oil that it is not necessary to mix heavy or light oils with the middle product, kerosene.
Wisconsin collects more than \$30,000 annually in fees from oil inspection. This money goes to the inspectors and in Wisconsin there are more of these inspectors than in any other state.
It is said that the oil inspector, J. J. Tracy, of Milwaukee, will appear with his deputies to fight the measure next week. Another bill of interest in the legislature is one increasing the salary of inspector Tracy.

MRS. BOYLE TRIES TO END HER LIFE ON A FAST TRAIN

Wife of the White Kidnaped Sought
Death Rather Than Being Taken
to the Mercer Jail.
(By Associated Press.)
Pittsburg, Pa., March 27.—Mrs. James Boyle left here for the Mercer jail at 8:15 this morning.
Reached Mercer
Mercer, Pa., March 27.—Mrs. Boyle arrived here at 11:05 this morning. There was no one at the station. The woman made a dash for the platform, but the brakeman quickly slammed the door. Mrs. Boyle then attempted to jump from the train, but was stopped by a guard. She was then taken to the Mercer jail.
As a brakeman opened the rear door of the car, the woman jumped from her seat and ran toward the platform, but the brakeman quickly slammed the door. Mrs. Boyle then attempted to jump from the train, but was stopped by a guard. She was then taken to the Mercer jail.
She was conducted back to her seat and a very close watch kept over her for the remainder of the journey, which was accomplished without further incident.
Just before leaving Pittsburg, Mrs. Boyle submitted to be interviewed.
She was emphatic in denying she was Anna McDermott of Chicago, saying her first name was Helen, and her home was originally in New York. She asserted she had no hand in kidnapping young Whitely, and said the numerous other stories told about her were absolutely incorrect.
She still maintained an air of mystery which has characterized her demeanor since her arrest in Cleveland and gave her interviewer but little satisfaction as to her antecedents or herself.
Boyle and wife will remain in the Mercer jail until brought to trial, probably in May next.

NEWS FORECAST FOR NEXT WEEK

ROOSEVELT AND PARTY WILL
TOUCH GIBRALTAR.
FOR RE-ELECTION OF DIAZ
Demonstration Will Be Held In Mexico
on Friday—Last Spike of C. M. & P. S. Pacific Extension.
(SPECIAL TO THE GAZETTE.)
Washington, D. C., March 27.—The coming seven days hold forth the promise of a considerable number of interesting and important news events, both at home and abroad.
Tariff and Appointments
The tariff bill will continue to occupy first place in the attention of the public at home. Other interesting bits of news that may be expected to emanate from the seat of national government during the week will relate to important diplomatic and other appointments.
Harvard Club Dinner
President Taft has promised to be one of the guests at the annual dinner of the Harvard club at the Ritz-Carlton hotel Tuesday night. Other guests will be the retiring president of Harvard, Dr. Charles W. Eliot, and Senator Taft. Dr. Edward Everett Rice and others prominent in public life.
Roosevelt at Naples Next Week
Before the end of the week the steamship Hamburg, with Colonel Roosevelt and party aboard, will touch at Gibraltar, and on Sunday the ship is due to reach Naples, where the Roosevelt expedition will transfer to the steamer Admiral, leaving the next day for the east coast of Africa.
Events of special interest in the industrial world will be more or less numerous. The attention with regard to the threatened strike of the coal miners will be watched with interest. A reduction in wages is announced by several of the steel companies to come into effect with the first day of the new month, on which date some important changes in railroad rates and regulations also will come into operation.
Finish of C. M. & P. S.
The Chicago, Milwaukee & St. Paul railroad has fixed next Friday as the time for driving the last spike in the new Pacific extension of their system. The event is of more than ordinary importance in marking the completion of another transcontinental railroad line.
Georgia Convict Lease Plan
The convict lease system, which has come in for much severe criticism of late years because of the graft and cruelties it was alleged to have fostered, will come to an end in Georgia next Wednesday, when the law passed by the last legislature to abolish the system will come into force. Under the new system the convicts are to be used on the roads of the state and other public works and also on prison farms. It is anticipated that under the new law Georgia in a few years will have a magnificent system of public highways.
Conventions
Conventions and conferences that will attract public notice during the week will include the biennial international meeting of the Brotherhood of Locomotive Engineers and the annual meeting of the General Federation of Women's Clubs, both of which are to meet in San Antonio, Texas; the annual convention of the National Dental Association, at Birmingham, Ala., and a conference called by Governor Sanders of Louisiana to meet in New Orleans to take action looking to the establishment of uniform child and women labor laws and the possible betterment of conditions in this respect throughout the south.
The popular demonstration that is scheduled to be held next Friday in the City of Mexico in favor of the re-election of President Diaz promises to be the greatest and most spectacular affair of its kind ever held in Mexico. The parade, which will be the chief

MILK ORDINANCE IS TO BE TESTED SOON

Milwaukee Has Secured Restraining
Order Until Hearing Is Made on
the Tuberculin Test.
(SPECIAL TO THE GAZETTE.)
Milwaukee, Wis., March 27.—An injunction restraining the city tax commissioner from enforcing the tuberculin test of the new milk ordinance was signed by Judge W. J. Turner of the circuit court this morning and served on the city officials. The order is returnable before Judge Turner next Wednesday, and the city is enjoined from enforcing the milk ordinance until a decision of the matter is reached.
P. A. Valentine Would Help Re-Organize the Defunct Booth Company.
(By Associated Press.)
Chicago, March 27.—P. A. Valentine today submitted plans for the organization of a new company with a capital stock of seven millions to take over the business of A. Booth and company, including all debts and assets. Valentine offers to put in a million to be distributed pro rata among a hundred and forty banks which hold five millions worth of Booth and company paper. The other eighty per cent of their claims will be satisfied with a million and a half in mortgage bonds of the new company. It is believed the plan will be adopted.

NEW LINE BETWEEN CHICAGO & SEATTLE

C. M. & P. S. 1,400-Mile Pacific Coast
Extension Cost \$100,000,000—20
Miles of Bridges.
(SPECIAL TO THE GAZETTE.)
Chicago, March 27.—The latter part of the coming week, if present arrangements are carried out, the company of driving a golden spike will take place a few miles from Milwaukee, to mark the completion of the Chicago, Milwaukee & St. Paul railroad. The new line is the latest of the transcontinental roads to be built and will afford another through route between Chicago and Seattle. One hundred miles of dollars is the estimated cost of the road.
The total length of the extension from the Missouri river to the coast is 1,400 miles, and by the time it is opened the total mileage of the St. Paul system will have reached 9,000 miles. The construction of the extension to the coast has occupied only three years, which is something of a record for quick work in railroad building.
The completion of the \$100,000,000 bridge across the Columbia river is alone a great engineering undertaking. Altogether the construction of the road required the building of more than twenty miles of permanent bridges.
The new road crosses the Missouri river about 100 miles west of Aberdeen, S. D., and then passes the state line through the Standing Rock Indian reservation, and swings into North Dakota, touching several towns on the Little Missouri river, thence it proceeds to Terry, Mont., the Yellowstone river, following the stream to Miles City, where large divisions of terminals are being built.
At Laramie the new line crosses the Northern Pacific and then climbs the great continental divide between the Rockies and the city of Butte on the west. At an elevation of 6,500 feet the road pierces the mountains and the head of Pipestone pass. The summit work includes two tunnels respectively 2,268 and 1,145 feet in length, and three steel trestles over ravines from 100 to 150 feet deep and from 400 to 600 feet wide.
From Butte the road passes by way of the broad and fertile Deer Lodge valley to Garrison and Milwaukee, Mont., and at Laramie will begin the long climb over the Bitter Root mountain range. At the summit it passes through the famous Taft tunnel of 8,751 feet, and after crossing the St. Paul pass at an elevation of 4,160 feet, passes through the famous Coeur d'Alene district. The last stretch of the road passes through the virgin timber lands of Snoqualmie Pass in the Cascade mountains and on to the populous cities of Seattle and Tacoma.

IS ACCUSED OF FOUR MURDERS

TERRIBLE CHARGES AGAINST
MRS. MARY KELLEHER.
WHOLE FAMILY POISONED
With Arsenic at Her Home in Somerville, Mass.—Makes No Admissions of Guilt.
(SPECIAL TO THE GAZETTE.)
Boston, Mass., March 27.—Not since Jane Toppin was convicted more than a decade ago of the wholesale poisoning of her friends and relatives has this section of New England been so stirred over a poison mystery as it has been this week by the developments in the case of Mrs. Mary Kelleher, the Somerville woman who has been indicted on the charge of murdering four members of her family. As in the case of the Toppin woman Mrs. Kelleher is alleged to have killed her victims by administering arsenic in their food.
The persons alleged to have been killed by Mrs. Kelleher are: Annie T. Kelleher, 3 years old, daughter of Mrs. Kelleher, who died Nov. 12, 1908; William Kelleher, 10 years old, son of Mrs. Kelleher, who died Jan. 14, 1908, and Edward M. Kelleher, 12 years old, eldest child of Mrs. Kelleher, who died July 23, 1908.
The case of Mrs. Kelleher first came under public notice last December when she was arrested on a charge of setting fire to the house of Prof. A. J. Lowell of Harvard, by whom she was employed as a domestic.
The bodies of the four persons who are now alleged to have been victims of poison were found in an Arlington cemetery, and remained there until after suspicion was aroused by Dr. W. W. White of Somerville, who called the attention of the police to the suspicious deaths in the Kelleher household. An investigation was ordered and the bodies were disinterred. Traces of arsenic are said to have been found in all of the bodies. The police also found that life insurance had been paid to Mrs. Kelleher after the death of each member of the family.
It is understood that the case of the state is based on the claim that Mrs. Kelleher was the person who had exclusive opportunity to administer the poison, and that she was the only person to benefit in a pecuniary sense from the death of those who died. It is the claim of the police that during the brief illness of each one Mrs. Kelleher employed no nurse and had only occasional assistance from friends and neighbors.
Since her confinement in jail Mrs. Kelleher has been under observation for the purpose of determining her mental capacity. However, the inquiry into the supposed poisonings was started two physicians were appointed to study Mrs. Kelleher. They have had a number of interviews with her, but she has baffled them by her dexterous reports.
Reports of the activity of the police in the investigation of the deaths of her children came to Mrs. Kelleher's ears about two months ago. The prisoner is said to have become very nervous and excited. The physicians who had been observing her noted so serious a nervous weakening that they advised the physician to give her employment in the household. If she were not employed the doctors said a collapse was inevitable. But despite repeated questioning the woman has made no admissions as to the deaths of her children.

COMES FORTH AS A SECOND ST. PATRICK

North Carolinian Writes to State's
Attorney General—Wants to Drive
Snakes Out of Wisconsin.
(SPECIAL TO THE GAZETTE.)
Madison, Wis., March 27.—Down in North Carolina they raise a weed that is to rattlesnakes what the "deadly nightshade" is to the human race. The weed is called "snake weed" and it is the business of the North Carolinian to drive it out of the state. The weed is a small, green, leafy plant that grows in the fields and woods. It is very poisonous to snakes and is used by the North Carolinian to drive them out of the state. The North Carolinian writes to the State's Attorney General, Mr. C. Steele, and asks him to help him drive the snakes out of Wisconsin. Mr. Steele writes back to him and tells him that he will help him drive the snakes out of Wisconsin. The North Carolinian is very pleased with Mr. Steele's answer and writes back to him and tells him that he will drive the snakes out of Wisconsin. Section Foreman Picks Up Purse With
Much Money in It—Lost in a
Robbery Some Time Ago.
(SPECIAL TO THE GAZETTE.)
New London, Wisc., March 27.—Old Stenstrom, local section foreman for the Green Bay and Western Rys, found in a pile of ties a purse containing \$200 in checks and notes which was stolen from the Great store at Horiconville several months ago. The identity of the robbers has been a mystery since the robbery last year.

NO EXPLOSION FELT BY THE BATTLESHIPS

Mississippi Was Not Affected by the
Reported Explosion This
Morning.
(By Associated Press.)
Guantanamo, Cuba, March 27.—The report of an explosion on the warship Mississippi is false. A telephone message from the naval station reported the Mississippi lying at anchor with the Green Bay and Western Rys. There are no indications whatever of any disturbance in the fleet.

WHAT EFFECT WILL A TRANSFER HAVE?

Mrs. Walrath, Whose Liquor License
Is Liable to Be Revoked, Said
to Have Sold Place to
Son-in-law.
With the announcement of the sale of the Union House to J. Malone by Mrs. Walrath an interesting question comes up for the legal lights of the council to decide. At the present time City Attorney Maxfield has on file with the city clerk a formal demand upon the council to revoke the liquor license of Mrs. Walrath, owing to the fact she pleaded guilty to violating a city ordinance. NO STRIKE, SAYS LEWIS.

Miners' Chief Sees No Prospect of Anthracite Field Fight.

Indianapolis, Mar. 27.—"I see no prospect of a strike in the anthracite coal fields," said Thomas L. Lewis, president of the United Mine Workers of America, at the close of yesterday's session of the national executive board. "The miners will continue at work indefinitely. That is to say, unless the operators demand that a new agreement be signed to take the place of the one that expires April 1."

He said the anthracite situation will receive little more than passing consideration at the meeting here. The presidents of the three anthracite districts are expected in Indianapolis today.

"I hope for another conference with the anthracite operators next week or the following week," said Mr. Lewis. "I maintain that the anthracite operators must deal with the miners' organization as a whole, but I believe that some time will elapse before a crisis is reached in our negotiations with the anthracite mine owners."

"Hobo" Is Worth \$10,000.

Harrisburg, Pa., Mar. 27.—The police authorities of the city believe that a tramp who died in the Dauphin county prison a few weeks ago under the name of John Moran, was none other than J. W. Cook, formerly a resident of Coffeyville, Kan., and a man who was really worth \$10,000. Chief of Police George sent letters to Coffeyville and the son of Cook has written a letter in which the description corresponds closely to that of the dead tramp.

MURPHY IS SELECTED NEXT YEAR'S CAPTAIN

High School Basketball Squad Chose Him to Have Charge of Teams Next Year.

At a meeting of the high school basketball squad held after school last evening, Emmitt Murphy, who played the position of forward all through this season's schedule of games was chosen to be captain next year. Murphy has been one of the stars of the team this season and the choice of the boys is well made.

The interest in athletics is spreading somewhat to the members of the boys' literary societies. The Rusk Lyceum have picked a team of roly runners and will challenge the Forum society to meet them in a relay race. Fred Granger has been chosen as captain of the team, the other runners to be Vincent Koch, Raymond Snyder, and Glenn Robertson.

Extemporaneous Speaking. At the meetings of the Junior and Sophomore classes last evening Anna Hewes, Clara Blodgett, Otto Peterson, and Will Hyde were chosen as the class extemporaneous speakers, with Jessie Jones as alternate.

The choice of the Sophomores was: Katherine Jeffries, Amy Williams, Rachel Head, and John Shawan, Louis Thorne, alternate. The extemporaneous finals and the declamatory, oratory and poetry contest will be held at the high school next Saturday evening.

STILL WORKING ON GUARANTY COMPANY

Local Investors Interested in the Results Obtained by the Receivers.

Janesville holders of the bonds of the American Guaranty Company will be interested to learn that by the filing of the receiver's report on the affairs of the company the widow of Mrs. Carrie Rebecca Furey, widow of the former president, for a million have been destroyed, and her attorney declares she will not get a penny from the wreck.

A deficit of \$1,282,533.33 is shown by Receiver Edwin A. Potter. His list of assets and liabilities are made subject to changes occasioned by the court on the legal complications, but in no case will the 6,892 contract-holders be paid in full.

Big List of Bad Loans. Bad loans amounting to \$184,785.78 are listed in the report. Where the other losses, amounting close to a million, went is not explained.

George S. Steere, attorney for the widow, declares that too liberal contracts drained the funds of the company, which existed only because the stock was bought in by the dead president and the two directors, James L. Bigelow and L. W. Plicher.

A long fight in the courts over what is left of the company is expected because of the alternatives suggested by the receiver.

The 6,892 contracts outstanding have a cash surrender value of \$1,513,345.92, on which there has been loaned \$413,582.50. To pay these there are assets of \$977,550.77, which the receiver says \$184,785.78 is worthless, leaving net resources of \$792,864.99. There is also a question raised by the receiver as to whether the amounts loaned on the contracts shall be set off against their surrender value. The fund of \$565,891.37 held by the

Royal Trust company is shown as one of the sound assets.

Point for Settlement.

One of the points yet to be fought out in the courts is whether or not the contracts of less than two years' standing shall be declared forfeited without any surrender value. If they are the liabilities of the company will be much diminished.

Talk of reorganizing the company is now general. Sidney Graham, representing the contract holders, says a committee of them will consider a proposition that will assure them better returns than will be possible under the closing out of the guaranty company. Until the exact amount to be paid on the claims is known no action will be taken.

Attorneys agree that the cost of securing business and the liberal interest paid—more than 5 per cent—made the business a losing one from the start.

The condition of the company was kept from the public only through the purchase of the outstanding stock.

HOARD'S PAPER IS SPEAKING PLAINLY

Rejoices in Fact That Carp Fishers Have Drawn up Their Nets at Lake Koshkonong.

In a recent issue of the Jefferson County Union, edited by former Governor Hoard of Ft. Atkinson, the following interesting article on the carp fishers is found:

There is much joy in the ranks of the sportsmen of this city over the fact that the carp fishermen are pulling up their fyke nets here before the spring run of pike, pickerel and bass.

For several seasons these beautiful game fish have languished and died in these barbarous prisons, by the ton caught while on their way to their spawning beds up stream.

The reason for pulling up given by the carp men is that owing to low prices their work does not pay. The Union believes, however, that there are other reasons.

The carp business here has flourished but at an enormous waste of game fish and if kept up for several years more there is no doubt in the minds of those who have made this thing a study that all our game fish would, in time, be annihilated while the carp would become as numerous as over. When carp become so numerous they descend a stream. Lake Koshkonong has been fished out several times, but has been replenished by the carp from above.

The waste by seining has been simply barbarous. When a seine is hauled on a muddy, ice shore the game fish are practically all destroyed as it is a physical impossibility for the carp men to save them except by abandoning the haul, and to abandon a rich haul with the wind and waves assailing, calls for a deed of sacrifice unknown to but an extremely limited number of fishermen.

We have never known of but one fisherman capable of resisting such a temptation. Last November there were at least two hauls made in which the destruction of game fish was simply frightful and capable of being measured only by tons in each case. Each time the officiating game warden complacently looked on or merely shrugged his shoulders by the warm fire in the fisherman's shanty. Thus was the game warden department, a powerful force designed only for good, turned into a powerful engine of destruction against the interests of the very men whose dollar licenses made its existence possible.

In each of the instances above named the game fish were suffocated in the muddy water and as a crowd of deep into the mud by the struggling carp to whose protected gills the mud did no damage; and in each case also eye witnesses estimated that the number of game fish thus destroyed far outnumbered all the game fish caught in the legitimate sport of fishing with hook and line for several years by all the fishermen that visit the lake.

The Union knows whereof it speaks and can substantiate every statement here made, if called upon to do so.

FAIR OFFICERS MET FOR ORGANIZATION

Officers of Boscobel, Mineral Point, Monroe and Other Fairs Had Session Last Night.

Monroe, Wis., March 27.—Officers of five fairs in southwestern Wisconsin held a meeting here last evening and organized the Southwestern Wisconsin Fair and Race Circuit. F. E. West, of Burlington, was elected president, and C. S. Gribble, of Plattville, secretary. They will hold a meeting later to agree upon an arrangement of races. Each fair will hang up \$3,500 in purses, making a total of \$17,500. There will be five straight weeks of racing for horses coming into the circuit. The Boscobel fair opens the second week in August, next comes Mineral Point, Burlington, Plattville and Monroe, which holds its fair the second week in September.

WHAT CAN YOU DO?

Go into a business house today and apply for a position. You will not be asked "WHAT DO YOU KNOW?" but "WHAT CAN YOU DO?"

Can You Do the Work the World Wants Done?

Can you write a good hand? Can you keep a set of double entry books? Can you write shorthand and operate a typewriter? Can you compute interest and discount by the shortest methods? Can you add a column of figures rapidly and correctly? Can you draw up correctly checks, notes, drafts and other forms of commercial papers?

IF YOU CANNOT DO THESE THINGS YOU WILL HAVE TO GIVE WAY TO THOSE WHO CAN.

Business men seek help that come to them thoroughly prepared to do the work required of them. Inefficient and indifferent service will no longer be tolerated, because only work well done is profitable.

We know the requirements of the business world, because we are constantly in touch with modern business establishments and we have the facilities for supplying their demands. Our courses of study are modern—our teachers are competent and practical—and our appointments are up-to-date.

Enroll in this school for a thorough business course. It's the training that enables you to successfully answer the question:

Women's Outdoor Clothes

(FROM CHICAGO TRIBUNE.)

This is decidedly a season for indoor garments—how light, cherry, and springy are the new colors!

In previous seasons there have been two or three specified colors for outdoor clothes. This year there are a dozen; and every color has several shades.

Harmony of line and color seems to be the keynote, from the hat to the shoes. Either everything is of one color, or of several different soft tones which blend together in a marvelous fashion.

The same thing in styles. While the general trend is toward long straight lines, this effect is arrived at in a great many different ways. Some of the coats appear to be literally hanging off the shoulder while others fit very smoothly over the shoulders, and suddenly cut right off, forming almost a point at the back.

The hat must match not only in color but in style the rest of the costume; the flowers and ribbons are of beautiful tapestry colorings, which melt one into the other, and even the veils have gotten away from the proverbial black, browns, and white, and have taken on the hues found in the other parts of the dress.

Our lines of wearing apparel comply with the fashion demands of the day, and in Suits, Dresses, Coats, Skirts and Waists will be found the best productions of New York makers.

As in past seasons Janesville's best showing of refined styles can be found here. The price range on Suits is from \$12.50 to \$50; on coats \$5.75 to \$45; on Skirts \$5 to \$15; on Waists 95c to \$15; on dresses, \$5 to \$50.

Race for Aldermanic Honors in Fifth Ward Promises to Be a Merry One—Other Election News.

The democratic race to have things all their own way in the Fifth ward, Alderman J. J. Dulin, being the democratic nominee, will necessarily have to decline the republican nomination which was tendered him by thirteen voters and this will create a vacancy which the republican city committee will have the privilege of filling. Edward H. Peterson is to be the candidate and his friends believe that he has an excellent chance of carrying the ward.

Frank M. Britt, who was defeated in the race for the democratic nomination for supervisor in the Fourth ward, but who received 21 republican votes which would have given him the republican nomination, this morning filed his formal declaration of the honor.

Samuel Grundy, who was defeated in the race for the democratic nomination for alderman in the same ward but who received 21 republican votes, will, it is understood, decide today either to accept or reject the republican nomination.

Charles H. Evans has filed papers which will give him a place in the voting machine's independent row as a candidate for alderman from the First ward. W. H. Morrill has decided not to enter the race, but it is understood that signatures are being secured for a republican candidate in the person of David Drummond.

Whether or not Fred Hutchinson will accept the democratic nomination for supervisor in the Second ward remains to be seen. There are two men of that name in the ward, one being J. P. Hutchinson, the ex-mayor, and the other being his son, Fred O. Hutchinson. "The voters wrote the name in simply as 'Fred Hutchinson'."

FOUR NEW MEMBERS JOIN OUTDOOR CLUB

Quartette of Girls Who Are Interested in Studies of Club Were Admitted Today.

The Outdoor club is making a name for itself and is becoming popular among the young people of the community. While formerly only boys have been attending the sessions, the girls have begun to be interested in the study of nature and in membership. The young people get both pleasure and benefit from the hour spent each week at the library. This morning the time was spent in talks on the following birds:

Black-capped Chickadee..... Stanley Yanco
Wood Pewee..... Lloyd Craig
Canada Goose..... Garnet McVear
White-breasted Nuthatch.....
Golden-crowned Kinglet..... Ross Lowry
Yellow-bellied Sapsucker.....
Linn Elder
Next Saturday one of the young ladies admitted to membership. The young people get both pleasure and benefit from the hour spent each week at the library. This morning the time was spent in talks on the following birds:

House Wren..... Harry Bonwitz
Junco..... Rhamar Sloan
Pheasant..... Leslie Bailey
Goldfinch..... Marion Matheson
Mourning dove..... Sherwood Sheldon

BIDWELL & HILLER CHICKENS SET FREE

Nicholas Reed Took It Upon Himself to Give the "Evidence" a Chance to Go Away.

There were persistent rumors abroad on the streets last evening and this morning to the effect that George W. Bidwell whose arrest on a large charge caused a sensation yesterday, had not only threatened but had actually made an attempt to take his life at the jail. Thursday Floyd Crawford stated this afternoon that these reports were absolutely without foundation.

In 1907-8 Bidwell conducted the present McShane saloon at 500 West Milwaukee street. He was also in the employ of the C. & N. W. railroad company several years ago and it is alleged to be the belief in some quarters that he kept in his possession one or more of the caustic soda bottles after quitting his job with the company.

The five chickens which Bidwell and William Hiller were carrying in the gunnysacks at the time of their capture, were penned up in one of the empty stalls in the police department's barn on North Jackson street. Nicholas Reed, who lives in the house next door on Wall street, came upon the fowls while wandering through this barn and jumped to the immediate conclusion that the poultry belonged to him and that some of the boys had been playing a trick on him. He therefore released them and the "evidence" was consequently difficult to find and identify in case anyone turns up with claims that his or her hen-roost was the one despoiled. Hiller is said to claim that the chickens belonged to him. They were particularly large ones of some mixed breed.

Charles Pierce has been retained as counsel by the Bidwell family and there are picturesque threats of what is going to be done to the officers for putting his client in the "sweet-box."

STOCK STAR IN ROLE OF BETRAYED WOMAN

Miss Oulna Marion Portrays Character of Woman Deceived but Not Lost.

"The Village School Master," a rural four-act comedy-drama, was presented by the Marion-Woods Stock Company at the Myers last night in a very capable manner. The members of the troupe go about their work in a businesslike way, and with an entire absence of the shrieking and exaggerated acting that characterizes the playing of a great many companies. In last night's performance Ruth Gale did some good straight comedy as "Hobby Jenkins." "The Marriage of Kitty" is announced for this afternoon and "Miss Hursey from Jersey" for tonight.

OBITUARY.

Miss Laura Arndt.

This morning at half-past twelve death ended the sufferings of Miss Laura Arndt, her demise occurring at the home of her parents, Mr. and Mrs. Herman Arndt, in the town of Johnston. Heart trouble was the cause of her death. She had been confined to her bed since but a few days, but has suffered intermittently from rheumatism for the past three years. The young lady was about eighteen years of age.

Notice of the funeral will be given later.

Mrs. John Huehka.

The funeral services of Mrs. John Huehka were held this morning at St. Mary's church and were largely attended. Rev. Wm. Goubel conducted the services. Handsome sprays and beautiful floral designs decorated the coffin of the deceased. The remains were laid to rest in Mt. Olivet cemetery. Frank Hunt, William Veltch, Anton Kusanin, Peter Kusanin, Frank Popelch, and Bernard Peschel were the pallbearers.

John Cantwell.

The funeral of the late John Cantwell will be held at Bangor, Wis., at half-past four o'clock Monday afternoon.

Hiram Bullock.

The remains of Hiram Bullock were laid to rest yesterday afternoon in the North Johnston cemetery. The pallbearers for the deceased were: E. A. Taylor, H. W. Brown, Josiah T. Wright, Charles Carr, Charles Gletter and Carl Brockhaus.

Among those from out of town who were here for the funeral were: Mr. and Mrs. Samuel Bullock, Mr. and Mrs. Bloodgood, and Mr. and Mrs. H. James, all of Whitewater.

MEN'S SUNDAY MEETING AT THE Y. M. C. A. ROOMS

The subject for discussion in the men's meeting at the Y. M. C. A. building tomorrow will be "How Can We Interest Men in One Another." This is a continuation of the discussion opened at last Sunday's meeting by representatives of the labor unions. D. C. Harlow and J. H. Jones will open the meeting tomorrow with short talks, followed by a number of short talks now being arranged with other men. Some of the labor union men are expected to be present and assist in the meeting. All men in the city are cordially invited. The meeting is from 3 to 4. An interesting meeting is expected; special music, including violin, trombone, cello, piano and the male quartette, is on the program.

FAST GAMES PLAYED AT Y. LAST NIGHT

Much Enthusiasm Shown in Contests of Business Men's League And of Intermediate.

The excitement in the basketball games at the Y. M. C. A. last night was wrought to a high pitch on account of the fastness of the play and the close scores in two of the games. In the Business Men's league, S. Lovejoy's team are again picking up and beginning to win. The return of S. Lovejoy, the captain, has greatly strengthened the team. They defeated J. L. Wilcox's team by the score of 10 to 1. In the second game F. C. Grant's team suffered defeat at the hands of J. L. Wilcox's team. The passing of Bill was a feature of this contest, while the guarding of W. H. Morrill was phenomenal. The two teams for the lead in the intermediate league promises to be hard fought before the end of the season. The winning team will be given a banquet. At present there are three teams tied for first place and another only one game behind them. This game played by the Tigers and Glants was a most sensational contest and lasted a few minutes over time to allow one team to make the deciding score. This was secured by the Tigers, who beat their opponents 12 to 10. The last basket was thrown by Robert Chase. The Sox five versus the Cubs resulted disastrously for the Cubs, they losing by the score of 6 to 14. The Naps defeated the Pirates 1 to 3.

Outdoor spring work has commenced. On Thursday evening a number of the Senators took a run about the city and this morning the Juniors ran for a short distance.

HERMAN BLEVER ACQUITTED BY THE JURY OF SIX

Who Tried Him on a Charge of Stealing a Bushel of Corn From His Brother-in-Law.

Testimony and arguments were concluded in municipal court late yesterday afternoon in the action of the State vs. Herman Blevier, charged with appropriating to his own use a bushel of corn alleged to have belonged to Frank Rehner. After deliberations lasting a half hour, the jury of six returned a verdict of "not guilty." The parties to the action are related and the case was evidently the outcome of a big family jar.

CIVICS CLUB WILL TALK OF PRESENT DAY YOUTHS

Equipment of Young Men of Today And of Fifty Years Ago Will Be Discussed in Debate.

The discussion at the meeting of the Civics club of the Baptist church next Tuesday evening will take the form of a debate. The subject chosen is one that is of interest to the young men as they are directly concerned in it. Resolved, That the young men of today are not as well equipped to meet the problems of life as the young men of fifty years ago, is the question. On the affirmative side are Wilson Lamm, Roy Eiler, Roy Carlor. The defense of the negative side will be taken by J. C. Hazen, E. M. Starnes, and Gerald Palmer. The debate follows the regular banquet at seven o'clock.

CURRENT ITEMS.

New Duster: Alex Russell returned yesterday from Chicago, where he purchased a new black bus team. The horses weigh 1,250 pounds and cost \$500.

Infant Daughter: Mr. and Mrs. David Dewey are rejoicing over the arrival of an infant daughter at their home, 646 North Railroad street, Friday morning. Mother and child are getting along nicely.

Meeting of Dentists: Janesville and Beloit dentists enjoyed a supper at the Hotel Hilton in Beloit this week and Dr. John H. Wilcox of this city presided at a meeting held at the office of Dr. Bradley. Plans for the big convention of Southern Wisconsin dentists which is to be held in the Lino City on June 2 and 3 were discussed.

A False Alarm: In response to a telephone call the fire and police patrol wagon from the East Side station visited the Park hotel last evening. Gas had accumulated in the chimney and it was being burned out with the aid of kerosene. Someone had evidently seen the sparks and imagined that there was serious trouble in that quarter.

Teachers' Examinations: Friday and today, Superintendent Hemmingsway has been holding examinations for the positions of teacher in the country districts. Next week Sept. C. D. Antle will give "exams" for teachers in his district.

To Be a Citizen: First citizenship papers have been taken out by Christ Christenson of Clinton, a native of Denmark.

An Infant Son: Mr. and Mrs. H. A. Allen of Deladell, Wis., are rejoicing over the arrival of an eight pound boy. Mrs. Allen was formerly Miss Hazel Kimball of this city.

WILL USE ELEVATOR AS A WAREHOUSE FOR GROCERIES

Janesville Grocery Company Has Closed Deal for Purchase of Western Elevator Co's Building.

The present warehouse of the Janesville Wholesale Grocery company having proved too small for the needs of their business, the company have determined to enlarge their storage space and for this purpose have been making negotiations for the purchase of the elevator adjoining their property. This morning the deal was closed with the Western Elevator company for the purchase of the building it will be begun. The structure will be entirely reconstructed and will be rebuilt until the storage space will be increased to double the present capacity.

Plain Talk To Voters.

John C. Nichols Expresses His Views in Reference to the Janesville Schools.

In connection with the city schools it might be well to note that among the first items of importance considered by a manufacturer seeking a new location are the schools in the city. The value of the city schools and the requirements of the schools, with respect to the school commissioners, should be the personal pride of every city administrator. Nothing will tend to attract new industries to community more than good schools. It should be the pride of every city to keep its schools at the highest possible standard and I am glad to say that the Janesville schools are among the best in the state as regards scholarship. However there are other items in connection with this interesting subject that come directly before the council for consideration. The sanitary condition of the schools, the care of the school grounds and the means taken to prevent any disaster that might arise from a panic in the buildings through fire or some unusual disturbance.

The children of the city are the future citizens, are the men and women of tomorrow and their interests should be as carefully safeguarded as are those of the business men and manufacturers. Too much care and attention can not be paid to our schools, their sanitation and the buildings and surroundings.

I believe that this is part of the duty of a Mayor to personally investigate the schools of the city and know for himself their needs and requirements. If elected I shall be pleased to make it one of my official duties to heartily co-operate with the school board in furthering the interests of the school and keeping them up to the standard demanded by the growing necessities of the city.

Janesville stands well to the front of the state in educational matters and this position it should maintain. Janesville has fine churches and this and its schools are two valuable assets for any community to be proud of. It is of importance to the fathers and mothers of the city to know that their children are receiving the best possible advantages in the moulding of the coming generation of citizens and I know of no way to assure this better than for the city fathers, elected by the people, to take a personal interest in the affairs but in no way conflicting with the school board.

Instead of conflicting with the board they should co-operate with them on every occasion and aid in meeting the growing requirements for the health and safety of the students in a substantial manner. Respectfully,
JOHN C. NICHOLS.

ROSE AND DICKIE
DEBATE ON LIQUOR

Milwaukee Mayor Opposes
Prohibition Movement.

COLLEGE HEAD IN DEFENSE

David S. Rose and Dr. Samuel Dickie
Argue Drink Habit Before Great
Crowd—To Meet Twice More—No
Decision Given.

Milwaukee, Mar. 27.—Mayor David S. Rose of this city and Dr. Samuel Dickie of Albion college, Albion, Mich., last night debated in one of the most remarkable debates ever held on the liquor question. Mayor Rose took the negative side and Dr. Dickie the affirmative on the question, "Resolved, That Prohibition, as Applied to the Manufacturer and Sale of Intoxicating Beverages, is Right."

The great Hippodrome, with a seating capacity of 4,000 was jammed to the doors, and although admission was by card, great throngs of people were turned away. The next debate will take place in Chicago and the third in some southern city.

Rose issued the Challenge.
Mayor Rose, at a recent Louisville convention, challenged the National Prohibition party to produce its best orator to meet him on the question debated, so the debater was the accredited representative of the National Prohibition party against Mayor Rose, who is generally known as the advocate of "sane" regulation of the saloon. There was no decision.

Dr. Dickie was the first speaker. He said in part:

"The prohibition of the liquor traffic is right, if considered only from the economic standpoint. The saloon is the foe of capital, but pre-eminently the enemy of labor. It paralyzes the arm of the workman, shortens his life, excludes him from many lucrative callings, decreases his power as a producer and throws him into the labor market a vast mass of debased and unintelligent laborers who compel disastrously with the labor and industrial workers. No line of manufacture gives employment to so few men in proportion to the capital invested as does the liquor traffic.

Says Liquor Breeds Criminals.

"The liquor business breeds criminals. The testimony of prison chaplains, of wardens, sheriffs and judges of the criminal courts warrants the assertion that from 80 to 90 per cent of crime is directly or indirectly traceable to the use of intoxicating liquors. "Not only is the liquor traffic a breeder of criminals, but it is, itself, largely composed of men who do not hesitate to violate the law. The great majority of retail liquor sellers are open and notorious lawbreakers. The restrictive features of the Wisconsin statutes as to selling on Sunday and on legal holidays are openly, shamefully and flagrantly trampled under foot.

"Prohibition is right, because it has been found to be the most efficient method of restraint."

Three Views Taken by Rose.

In arguing that prohibition is wrong, Mayor Rose treated the subject from three viewpoints, the ethical, ethical and material. He showed that while in ancient times the evil existed, when the ten commandments were written no attempt was made to inject prohibition and he challenged any one to find one word in the Bible advocating the theory of prohibitionists. Treating the subject from the ethical side, he took the census figures of the government and records of cities and states to prove that prohibition increased crime, insanity, deaths, domestic infelicity, pauperism and stagnated business. He took the criminal records of Milwaukee, a wide open town, and showed that the arrests here per capita was less than in the prohibition states of Maine, Kansas and Georgia.

He showed that more drunkenness existed in Maine than Wisconsin. He quoted census figures to show that more insanity existed in prohibition states than in neighboring "wet" states and that the death rates in Maine and Kansas were higher than the "wet" states adjoining.

Much was said about thousands of drunkards dying every year, but the mayor again quoted census figures to show more people died from whooping cough and measles than alcoholism.

Nation-wide prohibition, he said, would mean a loss of \$215,000,000 of revenue a year to the government, would seriously affect the farmer and labor of the country because the brewers and distillers and distillers consume \$100,000,000 of grain a year. It would paralyze business, cripple railroads and be felt in every walk of life. It would deprive people of personal liberty—all for no purpose except the fanaticism of the prohibitionists. The mayor urged sane regulation as the true solution of the drink problem.

MILLIKIN'S \$1,500,000
WILL MAY BE FOUGHT

Woman Claiming to Be Dead Decatur
Banker's Niece Threatens
a Contest.

Decatur, Ill., Mar. 27.—The will of James Millikin, banker and philanthropist, who left an estate of \$1,500,000, may be contested. Practically the entire estate, with the consent and approval of his wife, was left in the hands of five trustees for educational and charitable purposes in the city of Decatur.

Mrs. Anna Leclaire of Lindenwood, Hamilton county, is claimed to be the one who will make contest. Mrs. Leclaire asserts by letters that she is a niece of James Millikin, but her claim is denied by the executors. She says that she is a daughter of John Millikin, but the executors assert that there never was such a person.

The trustees are O. B. Gorin, J. M. Brownback, Smith Walker, all business associates of the millinaire; Mrs. Anna B. Millikin, widow and Dr. S. E. McClelland, president of the board of managers of Decatur college of the James Millikin university, Decatur.

To Decatur college of James Millikin university, to which Mr. Millikin has left \$400,000, provided the Presbyterian church raises and gives to the school an equal sum within one year. In case of failure of the church to comply with the conditions the \$400,000 is to become part of the residuary estate.

The will makes provision for keeping the government of the school largely in the hands of trustees of the estate, though the Presbyterian synod will elect the board of trustees and the trustees will elect the managers of the college. The will also provides that Bible study be included in the curriculum of the school, but that the teaching must not be sectarian or doctrinal.

To the widow is left the home place, worth \$75,000, and she is also given \$5,000 a year. To Elizabeth B. Hanna Jackson of Michigan, a niece, is left \$25,000. The only other bequest is an annuity of \$1,200 to a nephew, James McFarland of Topeka, Kan. The remainder of the estate is left absolutely in the hands of trustees for disposition at their discretion.

IRELAND ENDS VISIT TO PARIS.

Archbishop Deplores Lack of Religion

In France—Sees Change for Better.

Paris, Mar. 27.—Archbishop Ireland sailed today from Havre on the steamship La Touraine for New York. During his week's stay in Paris the archbishop has been the recipient of much attention. In an interview he said:

"From what I have seen and heard during my stay here I have formed the distinct impression that the state's policy of persecuting religion will not last much longer—that there will be an arrangement to intervene

soon. A republic, especially a republic like France, where the people are volatile, cannot endure without religion, which is the creator of the individual conscience.

"The forces of order and public security realize that with the anchor gone the people will go adrift. The present strikes and unrest are giving the government rich food for reflection."

TAFT IN PEACEMAKER'S ROLE.

Has Hostile Congressmen as Guests
at White House Dinner.

Washington, Mar. 27.—A formal dinner given to members of congress and the cabinet last night was for the purpose of bringing the warring factions of both parties of the house together. All factions were represented, the White House decorations being Killarney roses.

Representative Champ Clark, Democratic leader of the house; Representative Fitzgerald of New York, the Democrat who broke away from his party in the notable fight on the house rules; Representative A. P. Gardner of Massachusetts, "Insurgent" leader among the Republicans in the house, and Representative Payne of New York and Dole of Pennsylvania, stalwart members of the so-called Cannon "machine," were among the noted figures about the table set in the state dining room.

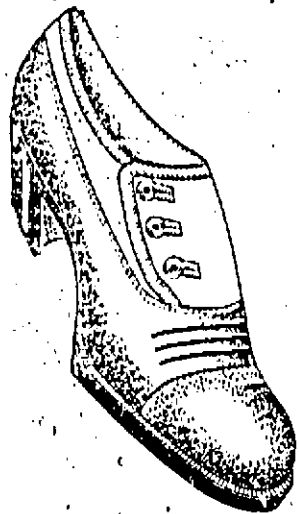

Ketchell Whips Jack O'Brien.
New York, Mar. 27.—The great cleverness of Philadelphia Jack O'Brien failed to save him from defeat at the hands of Stanley Ketchell, mid-gleweight champion of the world, at the National Athletic club last night. Ketchell's strength and powerful blows were too much for O'Brien. The former ring star was saved from a knockout by the bell at the end of the tenth round after a fierce fight.

Three-Cent Fare for Missouri.

St. Louis, Mar. 27.—The three-cent local ticket rate and the 2,000-mile interchangeable look will be put in effect April 10, according to an official statement issued by the 18 railroads in Missouri last night. The statement was issued after the return of the railroad representatives from Jefferson City, where conferences on the passenger rate question were held with Gov. Hadley.

A Million Tons
A Year

This is a lot of fuel—two billion pounds—it is the present record of Solvay consumption in the West.

More would be used if more people knew of its good qualities—there will be more used when they do.

It is the one perfect fuel for household use—the fuel that all goes to make heat—that leaves practically no ashes. Have you tried it?

SOLVAY

Solvay is made by a patented process whereby all the gas, tar, ammonia and volatile matter are taken out, leaving practically pure carbon—the heat element.

It does not burn out fire-pots and grates. The cost is less than that of hard coal—it is worth more, because it goes farther and makes more heat.

It is smokeless and sootless—no dust or dirt—no ashes to sift—you can start a fire more quickly than with any other fuel.

Directions For Using
Solvay:

To Start the Fire—Build the fire in the usual way. When it is well lighted regulate the draft to about one-half that required for hard coal. A little experimenting on your part will enable you to ascertain the draft required.

At Night—When the fire is to be kept over night fill the fire box with fresh fuel and check the drafts. Do not shake the grate, as the ashes will help to retard the fire and prevent it from burning too freely.

In the Morning—Shake the grate only until the bright sparks begin to fall and then open the drafts. When the fire is well started put on fresh coals and check it, the same as in the case of a fresh fire.

Remember—Keep the fire-box well filled, as by so doing the best results will be obtained. A large body of Solvay burning slowly gives better results and is more economical than a small body burning freely. Do not shake the grate after hot coals begin to fall.

For Furnaces—Keep the Solvay pile thoroughly saturated with water.

Cedar Rapids, Iowa, March 7th 1908.
To all who are interested in pianos and especially to prospective purchasers.

In April, 1905, I purchased of H. F. Nott (Janesville, Wis.) a new overstrung cabinet grand piano of the Newman Bros. make. Since then it has been in constant use and has proven satisfactory in every detail, and a delight in the home. Its volume, quality and evenness of tone is marvelous. The tones in the highest octave have a clearness seldom found in other makes. This piano will stay in perfect time for an UNUSUAL length of time which is a point of no small importance, and speaks loudly in praise of the entire construction of the instrument. Having tuned many pianos in Cedar Rapids, I feel that I am in a position to say that the Newman Bros. piano has few equals, all points considered.

REMNANT DAY

It is only necessary to announce that the Big Store is going to have a remnant sale to arouse the expectation of the women of Janesville and the surrounding country.

A remnant sale that the Big Store can make it so much greater than any other remnant sale that any other concern hereabouts can possibly make that the women folks at once take notice and get busy.

We have accumulated an immense number of remnants from all departments, and will make one great day of remnant selling. Thousands of remnants of the very best grade of merchandise priced so low that one does not have to be a judge of values to realize that they are great bargains.

Buttons Covered

We make buttons on short notice, flat or oval, with or without bone rims. Buttons ordered in the morning can be delivered in the afternoon or early next day.

TARIFF MEASURE
AND ITS EFFECT

JANESVILLE MANUFACTURERS
ARE NOT WORRIED OVER
RESULTS.

WILL NOT AFFECT CITY

Will be Beneficial in Many Respects
Over the Present Duty Paid in
Many Lines of Business.

Should the tariff schedule proposed by the Ways and Means committee of Congress be enacted, few Janesville manufacturers will feel the effects of the revision on the cost of their raw materials, whether the revision is up or down. The changes that will especially apply to the raw materials used by local factories are made on iron ore and steel products, lumber, sugar, leather, wool and paper.

The raising or lowering of the duties on the above articles will of course affect the manufacturers primarily, but everyone will feel the effect more or less.

The greatest clamor arises over the increase in the duties on stockings, gloves, perfumes and soaps, which of course will be felt more severely by women and children. The knitting factories will naturally be benefited by the almost prohibitive duty on imported stockings. According to the Payne bill, the duties on stockings and hose, valued at not more than a dollar a dozen, whether made of a knitting machine or by hand, will be increased from 50 cents a dozen to 70 cents. Up to a certain extent, this will give the American knitting companies the power to boost the price at their pleasure without any danger of foreign competition.

With regard to the increased duty on perfumes, soaps and drugs, George E. King, of the People's Drug Co., stated that they would affect prices very slightly.

"American manufacturers," said Mr. King, "have been competing so successfully with foreign firms, that they have practically driven them out of the home market. It is likely, however, that under the present system of charging for prescriptions, the increase in the cost of imported drugs mentioned in the tariff changes, will raise the cost of prescriptions a trifle. Whether or not the fact that a higher duty has been placed on soaps and perfumes, in the production of which American manufacturers have already driven out foreign competitors under the present duty, will result in an increase in the price of the Yankee goods, was not mentioned.

Another provision that affects the harness and shoe factories of Janesville, is the placing of hides on the free list. On the face of it, this should prove a benefit to everyone, manufacturer and purchaser alike. This feeling, however, is not held by the former.

"Naturally we are in favor of removing the tariff on hides," said A. A. Lay, superintendent of the Western Shoe Company. "Not that we are certain that it will help us, but in the faint hope that it may. The fact is, that the placing of the big four, are the cause of the high prices on hides. The present tariff changes will not admit many hides that are not already admitted free. Only those over fifteen pounds are taxed at present. If the pounds are lowered, the only hides that will be affected will be the German hides, and the packers have taken good care to secure control of them. In anticipation of this proposed change, they had their agents out as early as last May."

Almost exactly the same opinion is held by S. B. Behlman of the Bassett & Behlman company, except that he places the blame for the high price of leather more on its scarcity than on the big packers. "One thing seems plain to me," said Mr. Behlman, "and that is there will be few who will buy heavily in leather until the question is settled, and consequently there may be a slackness in our business for a short time."

Mr. Lay stated further that he was not alone in the opinion that there would be little change, but that he had conversed with officials of the Pfister & Vogel Hide and Leather Co. of Milwaukee and the American Hide & Leather Company, and their opinions coincided with his.

The reduction of iron ore from 40 cents to the free list and the decrease in the duties on iron and steel products has not aroused much interest among the Janesville manufacturers, among the Janesville manufacturers who would be affected should the proposed reduction be enacted. "You proposed no change either in the cost of our material, or in the selling price of our goods," said J. A. Craig, general manager of the Janesville Machine Co. "The time to look out for change will be after the reduction has been made a law, and even then it will not be certain that any change will be made. The powerful steel interests will see that nothing is passed that will in any way disturb present conditions. Even if the proposed changes should be made and they should lower the price of the steel trust, they will be made only after a strenuous fight. We are in favor of the changes, even though we hope that they will lower the cost of raw material, but we are not if they are, that they will exert an influence on the price of raw materials or finished products."

Under the provision of the Payne bill that applies to wood pulp and printing paper, the newspapers will derive much benefit. Wood pulp from any country product will be admitted free. The bill also reduces the duty from 3 to 2 cents a pound to 1-10 of a cent a pound on printing paper whose value is not above 2 1/2 cents a pound; and from 4-10 of a cent a pound to 2-10 of a cent on paper whose value is not above 2 1/2 cents a pound. "This reduction on printing paper is what the newspapers of the whole country have been fighting for some time," said H. H. Biles, business manager of the Gazette. "They have maintained a special lobby to fight for the reduction, and if the provision is passed it will mean a great deal to them. The greater part of the printing paper used in this country comes from Canada, and we are now in receipt of letters from Canadian firms promising us much more attractive contracts for next year should the proposed reduction be made. Many papers are avail-

ing the action of congress before signing contracts for their supply of paper, in the hope that they will receive the benefit of the tariff changes."

Local lumber dealers can see but little chance of either themselves or their customers profiting from the reduction in the duty on lumber which amounts to almost 50 per cent. Nor do the woolen manufacturers see any chance of getting cheaper raw material under the new tariff. The rules on wool are lowered simply on the third class or carpet wool.

"If the tariff revision would lower the price of wool, we should certainly like to see it pass," said A. G. Jones, superintendent of the Rock River Woolen Mills. "We are paying from 55 cents to 60 cents for secured wool where we need to pay from 33 cents to 40 cents."

Nothing that has been proposed thus far in the direction of a reduction on sugar will in any way affect the Janesville industry. The duty on raw sugar is not touched, but that on refined sugar has been reduced one twentieth of a cent a pound. This minute reduction is in itself incapable of making any difference in the amount imported.

"The only sugar Mr. H. Oshorn of the Rock County Sugar Co.," would be the admittance of the foreign beet sugar, for it would be impossible for this country to compete successfully with the cheap labor of Europe."

The duty of thirty-five per cent ad valorem on undyed shades of wool and other materials and of forty per cent on the dyed product is acceptable to the Hough Shade Corporation. "We think the tariff so far as it applies to us is very decent," said A. C. Hough. "We do not think that it will affect us particularly, either in the price of our raw materials or the selling price of our product."

School Children Throughout the State
Will Vote on Question of
State Flower.

Arbor day, which falls this year on Friday, May 7, will be of more than ordinary interest from the fact that day the school children of the state will make their final choice of a state flower out of the four that received the highest vote in the primary election on that subject last year. The four "candidates" to be voted upon this year are the white wild rose, trailing arbutus and white water lily. C. L. Harner, of the state superintendent's office, has a lively interest in the contest. At last year's primary 114,411 votes were cast.

The Wisconsin arbor day and bird annual has just been issued and is full of interesting features. The book was compiled by O. S. Rice, state library clerk. A portion of it deals with Roosevelt's conservation convention and there are a number of poems and bird articles. One of the features of the annual is a delightful bird article by Mr. and Mrs. J. N. Mitchell of Milwaukee.

As usual arbor day will be observed in the schools of this city. As a rule the exercises are held in the morning and the pupils are given a vacation in the afternoon. At some of the schools a bush or a tree is often planted on Arbor day.

LESS MEAT.
Advice of Family Physician.

Formerly people thought meat necessary for strength and muscular vigor. The man who worked hard was supposed to require meat, two or three times a day. Science has found out differently.

It is now a common thing for the family physician to order less meat, as in the following letter from a N. Y. man.

"I had suffered for years with dyspepsia and nervousness. My physician advised me to eat less meat and greasy foods generally. I tried several things to take the place of my usual breakfast of chops, fried potatoes, etc., but got no relief until I tried Grape-Nuts food.

"After using Grape-Nuts for the cereal part of my meals for two years, I am now a well man. Grape-Nuts benefited my health far more than the \$500.00 worth of medicine I had taken before.

"My wife and children are healthier than they had been for years, and we are a very happy family, largely due to Grape-Nuts.

"We have been so much benefited by Grape-Nuts that it would be impossible to tell you how much we are indebted to them. I am glad to postmark Co. Battle Creek, Mich. Road 'The Road to Well-being' in place. 'There's a Reason.'"

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

HORSE-THIEF TO BE
TRIED IN FREEPORT

Aged Man Who Stole the Dubb Drawing Co's Horse and Rig Will Go to Illinois Penitentiary.

All of the property stolen from the Dubb Drawing Co. Monday night, including the horse, buggy, harness, and blankets, has been recovered and was shipped from Elgin yesterday. Likewise the horse and harness taken at Freeport. The Freeport sheriff advised on the scene an hour ahead of Sheriff Schell and William Tomb and the horse thief, who gives his name as Thomas Brown, will stand trial in Illinois instead of Wisconsin. He was willing to come back here without a question paper, but to him what the prison claimed him for a long term as he did not expect in any event to live until the Dubb. The man is 65 years of age and gray haired; six feet and a half inch tall; weighs 130 pounds; and declares that his home is in White, water. His description tallies with that of the noted horse thief, Augustus, whom Ex-Sheriff Cochran arrested some years ago. The Elgin Freeport man captured him had been driving Bert Barker, an employee of the brewing company, about town and was waiting for the latter to take up one of his posters describing the stolen property and the reward when Brown went by with a pale team. Something in the latter's furtive glance backward at the man and his demand upon the need stranger to stop. The demand was honored and the old man went to police headquarters with them without any struggle.

Paulus, who is alleged to have been passing checks on banks in which he had no funds, were brought here from the Lake City by Deputy Sheriff F. H. Carter, on the county jail. The latter was apprehended in Madison and his trial has been set for next Monday. Gordon is alleged to have admitted his guilt.

ORGANIZED LABOR AND THE CHURCH

Were Topics Discussed in an Interesting Manner at the Men's Brotherhood Meeting.

In the absence of the president, M. O. Mount, who is at present in New Orleans, George Meier presided at the meeting of the Men's Brotherhood of the Presbyterian church last evening. Over thirty partook of the supper which was served at 6:30 and James A. Fathens opened the discussion with a very interesting talk on the topic "How Can the Church Be Made More Effective and Labor More Interested?"

Unionism were discussed by Silas Cary, E. M. Callins, who was to speak on "The Closed Shop" and George Wright, who was expected to analyze the attitude of Labor toward the church, were both absent and the topics were handled by Rev. J. W. Laughlin, H. H. Koster, and others.

James A. Fathens gave a very thoughtful consideration to the question: "Is the Church Adequate to the Laboring Man's Needs?" and W. H. Grant spoke of the attitude of the Presbyterian Church toward Labor. D. C. Harker was elected leader of the next meeting which will be held a month hence.

THE LLOYD RUBBER TIRES FOR BUGGIES

are the best, longest wearing, easiest riding tires made. Over six thousand feet have been put on already. Most every livery in the city use my tires exclusively. Let me show you how and why my two-way compressed method is the best.
